

LISTEN TO THE FLOWER, MAKE THE DIFFERENCE!

- Turn off the heat when you opening the windows of the chalet.
- Turn off the lights in your lodging when not needed and, in particular, when you go out.
- To Reduce your water consumption:
 - Turn off the taps when brushing your teeth;
 - Do not let the water run in the shower needlessly;
- Promptly inform our staff if you notice any water leaks;
- Use the correct amount of washing powder in the washing machine: it depends on the hardness of the water which is indicated in the laundries.
- Use the waste paper baskets placed in the bathroom for sanitary towels and paper and packaging trash, do not toss them in the WC; we wish to remind you that any hazardous chemical materials and/or oils and fats must be deposited in the recycling area; any waste or hazardous substance or any object that may damage or block the normal functioning of the pipe-systems, must not be thrown into the pipes.
- Comply with our separate waste collection policy by using the specific containers located outside the chalet (paper, glass, plastic) and inside the chalet (wet wastes under the kitchen sink and undifferentiated ones in the bathroom), as well as in the depot located outside the campsite (parking area entrance) where you will find:
 - The yellow recycling bin for paper and cardboard to be used also for newspapers, notebooks, old books, magazines, food containers,
 - The green recycling bin for glass,
 - The white recycling bin for plastic,
 - Specific trash cans (black) for the separate waste collection of polystyrene, metal tins, aluminium cans, used cooking oil, hazardous waste (sprays, used batteries, automobile batteries, refrigeration devices...).
 - Specific container for medicinal waste or expired medicines (which may be also handed back directly to the local pharmacy in Pellizzano).
- In order to reduce the use of motor vehicles, you may hire bicycles at the reception desk for short trips in the area; in addition a trolley is available for carrying items you purchase at our mini-market.
- We ask you to wash your car or motorcycle at the petrol station located in Malè only. Washing your own car or motorcycle at the campsite can be authorized by Management in special cases and will be allowed in the Camper-service area only.
- Please respect the quiet times from 1:00 p.m. to 3:00 p.m. and from 11:00 p.m. to 7:00 a.m.; during these hours it is forbidden to drive around the campsite, to assembly or dismantle camping equipment, to make any noise and listen to the radio or watch TV at high volume.
- Drive around the campsite at walking pace.
- It is absolutely forbidden to light fires in the campsite and the surrounding areas. Metal grills are allowed provided they are raised above the ground and far from vegetation. Before using these grills, verify the location of the closest fire extinguisher.
- Italian law strictly prohibits smoking in all the common areas; therefore, we ask you not to smoke in the chalets and to use the outdoor areas.
- We also remind you that both at the Reception Desk and on the Environment Notice Board you can find all the necessary information for using the local public transport; we invite you to use it for travelling in the local area.
- On the notice board you will also find information regarding the local flora and fauna, the countryside, the specific bio-diversities, the parks, nature conservation measures and policies adopted on the premises.
- We also remind you that our staff periodically organizes evening meetings aimed at the discovery of the local flora.

In addition, in collaboration with the Stelvio Natural Park, guided visits and learning activities are held; for any information and program please contact our staff directly.

We will be glad to receive any suggestions of yours to help us further improving eco-sustainable tourism.

We hope you will have a pleasant stay and thank you for your valuable cooperation.

QUESTIONNAIRE ABOUT THE ENVIRONMENT

Camping Cevedale considers the observation of the environmental law in force either the basic and the minimum requirement for a policy which respects the environment, as well as an important way to welcome its guests. We aim at the prevention of pollution and the subsequent improvement of any environmental aspects, with the purpose of reducing energy consumption and the production of garbage. Therefore, you are invited to observe all the camping rules and to take part in our environmental initiatives. Moreover, you are asked to fill in the following short questionnaire about the environment (and kindly asked to hand it back before your departure): your valuable advice will give us the opportunity to improve our environmental strategy.

1. Do you consider it is important to spread and expand the environmental culture? YES NO
2. Do you think it is important to adopt also those minimal measures in order to save and not to waste energy such as: switching off the heating system when, for example, you open the windows? Or turn the tap off when you brush your teeth? YES NO
3. Have you ever left the lights on even if not necessary?? YES NO
4. Do you think the separate collection (which we already have in our Camping) is important? YES NO
5. Do you think it is convenient and suitable for your comfort? YES NO
6. Is it the first time that you separate the garbage or do you already do it at home? FIRST TIME USUALLY
7. Do you think it is important to reduce to the minimum the use of soap, washing powder, bubble bath and so on? YES NO
8. Do you think such a reduction can actually affect the reduction of the pollution of our waters? YES NO
9. Is it convenient for the comfort to reduce water consumption? What do you think about it? YES NO
10. Do you think it is important to keep water consumption under control? YES NO
If YES, what do you actually do in order to reduce such a consumption? Or what would you suggest?
11. Have you used our bikes hire at least once? YES NO
12. Do you think that the amount of information regarding the alternative means of transport available in our camping is adequate? YES NO
If NO, could you give us any other suggestion to improve the service?
13. Which other services do you consider useful to avoid as much as possible the use of your own car when in the premises?
14. In your opinion, which are the cleaner forms of energy?
15. Which forms of energy would you like to use more in the future?
16. What initiatives would you suggest for a better preservation of the environment?

Thank you very much
for Your attention.
Your advice will help
us to improve our
service.
